opened. The timber-men were then at

work putting in the "station set." He stooped down to hand the workmen some wedges, when suddenly a rock weighing probably a thousan pounds gave way and fell from above striking him on the back and crushing him to the ground. He was raised to the surface and carried to his house not far distant. Drs. Bishop and Philson were cailed and they examined the injuries. They found that a dislocation of the spinal column had been made below the shoulders. The spinal cord is injured seriously—so much so that the lower limbs are completely paralyized. The injury is below the point at which the plexus that connects the vital organs with the Brain leaves the spinal cord and these organs are therefore unhart. Still there is little or no hope for his recovery; for though cases have ochis recovery; for though cases have oc-curred in which dislocation of the verte-bre have been cured, they are very rare, and only happen under the most favorable circumstances. The bones of the right wrist are also broken; but this is of little account considering the greater injury. At the present writing Mr. Hyde is in the full pos-

give for the benefit of the Catholic Church, is postponed till to-morrow (Wednesday) evening. Those laving already purchased tickets will please keep this in mind. A feature not in the programme will be the performance of several select airs by the American Brass Band which has kindly voluntered its services. The band will play on the verandah before the entertainment begins.

Herday, and the rain fell during most of the day, and until a late hour last evening. When we have no dust we growl about the dust; when we have no tither, we can't growl about the weather at all, and so we are unhappy. Therefore, let us now rejoice that we may growl to our hearts content.

of execution granted for thirty days. James Castello was brought into Court, and having plead guilty of grand larceny, was sentenced to confinement and hard labor in the State Prison for the period of fifteen months, beginning from the time of sentence. Before he received his s ntence, J. C. Foster, counsel for the defense, gave a statement of the case and asked that, as this was the first offense, His Honor make the sentence as light as possible. The Court then asked the prisoner if he had anything to say why sentence should not be pronounced upon him according to law. The prisoner said he had never committed a crime in his life before, and went on to relate how the theft had been committed. He broke down, however, when he had got half way. He then received his sentence and went back to jail.
